

SHAHZAIB KHALID

Python Developer
Software-Engineer(Soon)

👤 About Me

Self-taught Python developer with experience in web apps, automation tools, and scripting. Skilled in Flask, Selenium, and data handling with Pandas. Passionate about solving problems, learning new technologies, and building real-world projects. Preparing to kickstart a freelancing journey with a strong portfolio. Open to freelance or internship opportunities.

🛠 Skills

- Automation
- Web Scraping
- Web Development
- Data Handling
- Visualization
- GUI App Development
- APIs & Integration

🎓 Education

- **FSc Pre-Medical**
Punjab Group of Colleges 2022 – 2024
Developed a strong foundation in analytical thinking, biology, and general sciences. Later discovered a passion for technology and transitioned into Computer Science to pursue a career in software development.
- **BS Software Engineering**
Virtual university. Expected 2029
Enrolled to gain in-depth knowledge of computer science fundamentals, software development, and modern technologies. Focused on building practical skills through personal projects and freelancing alongside academic studies.

💼 Experience

• Python Dev. – Personal & Freelance Projects

Gained hands-on experience by building real-world applications, practicing automation, and solving problems using Python. Worked independently and consistently to improve coding, debugging, and deployment skills.

- Developed **20+ projects** including a **blog website**, **Amazon price tracker**, **YouTube auto Uploader**, **Text to Speech Web App** and **Workout tracker**.
- Built and deployed full-stack web apps using **Flask**, **SQLAlchemy**, and **WTForms** with user authentication.
- Automated data scraping from dynamic websites using **Selenium**, **Playwright** and **BeautifulSoup**.
- Managed all code on **GitHub** with version control and set up live apps using **PythonAnywhere**.
- Now Learning **DSA** in **Python**.
